“ I have such good memories of my kind Uncle Al who was always bringing me science projects when I was a little girl living on Gottschalk Street in Homewood. One summer he brought me a fledgling crow who learned to fly in our garage and land on my arm and another time he brought me some little pink furless baby mice. I know my brother and sisters and I loved visiting on the farm and climbing into the hayloft. All this fueled a lifelong love of animals and nature. In later life I became a Master Naturalist and a Master Gardener and could share all these wonders with others. All our best to our cousins, Barb (Bunny) Moore, Linda Bunker and Pat Coulson Shivers
