“ Mrs. McMEnamin was my first grade teacher in 1963. I only had her for half a year before my family moved, and I went to Edison elementary. I remember that I liked her and I was excited to run into her in the Governor Small memorial Park bookshop after I grew up. My condolences to the family.

I got to know Betty through my mom and Delta Kappa Gamma. She was always fun to be around. She always had a smile on her face and had a great sense of humor. She was passionate about teaching. I will miss her. Nancy Ort Hogan
