“ To Conni's Family,

*I graduated with Conni from Grant Park. I want to say I am so sorry to hear of her passing. I do not know why this has upset me so much. I wasn't even aware she lived in the area. We were not close friends in school, but with a class of 35 there was something there. There are no words I can say that will take away the pain of your loss. Please accept my deepest sympathy. Your family will be in my prayers.*

“ My Mom taught me many things as I was growing up, but dealing with the early days of grieving after her passing shows me that she will teach me even more as my memories, and thoughts of her soften and become more sentimental than I could have ever imagined. I see her when I look in the mirror, and in my own movements and gestures. It's sad to think that the special little ship that brought me to this world has sailed, but I will keep her memory alive as long as I'm alive. I miss her so much, and have learned in this that we should never take a moment for granted. Love your loved ones while you have the chance. Miss you mom, and I love you so much.
