“ My dearest Holly and family  
 Your mother was a very elegant woman, who will be greatly missed.  
 Not only was she a Top-notch doctor, she kept the most beautiful gardens, hosted the most delightful dinner parties, and was a caring mother.  
 In fact, she introduced me to my first fine dining experiences, when I was a very little girl.  
 And anyone who knew her well, would certainly know that Martha Stewart had nothing on her!!  
 This lady was pure class, and I can only hope that one day I will be half the woman she was, and will always be in my memories....

“ Dr. Anderson was a wonderful dermatologist and I will miss her! I missed her very much when she retired. She is the one who discovered my melanoma nearly twenty years ago and who calmly called the surgeon for me. Later, when I was following up with a surgical oncologist in Chicago, he said she was the kindest dermatologist he had ever encountered. I have to agree! As it happened, my mother passed away two days before Dr. Anderson did. I thought about how my mother helped bring me into this world, and how Dr. Anderson helped keep me here. May the good Lord rest their dear souls.##imported-begin##Teresa Mahoney##imported-end##

“ i was a patient of dr. andersons for many years. i had plantar warts so bad i was always going to see her. she tried everthing to get rid of them but they always came back. years later she was in line checking out at oscos and i was behind her. she turned toward me and called me by name.she then asked a question i will never forget "did you ever get rid of those damn warts?" i laugh whenever i think about it.i eventually had the warts lasered off and they never came back. i went to her office and told her and she was truly happy for me. she was a great doctor.##imported-begin##paul schmidt##imported-end##
