“ Dus Family <br><br> I am deeply soory for loose. I would like to you know what a good person is and how much he ment to and has helped me in the past. I was a police officer in St. Anne when I ment Ed. When ever I had a problem or called for back up Ed allways had his scanner on. there were several diffent times I would look down the street and see Ed there and I knew every was going to be ok. No matter waht it was I could always go to Ed for advice or help. When I left St. Anne to go to Manteno Police Department I felt like I was leaving my partner behind, but low and behold my first day my self who did I see Ed who came to see me and see how I was doing. My wife and I felt Ed was part of our family. If there any thing I do for the Dus Family please contct me at any time day or night. I I I ##imported-begin##Jason Forbes##imported-end##

“ I met ed on his admission to riverside medical center. He was the best patient I had, he always made me laugh and cry. He has taught me numerous life values during his stay here at riverside and I will always be deeply grateful for that. The one thing I remember the most is how highly he spoke of his kids and how much he loves them. I will always remember Ed.##imported-begin##Holley Doud##imported-end##

“ I was a former employee of Riverside Hospital in the dietary department. There I had the wonderful privillage of meeting and serving Mr. Dus. I would just like the family to know that Mr. Dus was a wonderful man who constantly greeted me with smiles and a rare warmth. He was the most considerate and exuberant patient that I have ever come across. When I read about his death, I became horribly despondent with the news. Unfortunatly, being a college student, I was unable to attend services. I would just like to send my heart out to the family, especially his children (some who I had the great privillage of meeting and sharing a pizza with) my heart and my deepest regrets. Your father was an amazing man with an even more amazing heart. Be proud of all that your father has done and had become.<br><br><br><br>Michelle (Chelle) Argento###imported-begin##Michelle Argento###imported-end##
