“ I met George in 5th grade while being an altar boy for the Greek church in Kankakee. That was about 18 years ago. He was the first Greek kid I had met at that point who was my age and not family, we instantly hit it off. We had a mutual understanding because of similar morals and family related principles passed on to us due to our wonderful heritage and I felt instant comradery. Greek people are very weird if you're not Greek, but we love our family more than anything in the world and are always there for our friends, I think George was a prime example of this. All through highschool and up to a few days before he passed we would see each other and refer to one another as "my Greek brother from another mother" and as usual George was smiling and always polite and that's how I will always remember him. My condolences to his family. RIP George
