“ Cousin Bo was probably the one person i knew who had more metal body parts than i do! He also must have had arthritis in just about every joint from working outside whit his hands all those winters at Amoco. That being said, what do i see the first time i pull up to Bo and Connie's house at Lake Barkley to spend a few days fishing? Bo, swaying in the wind at the top of a 28 to 32 foot extension ladder, working on a dormer window of the house! How he even got the ladder up there, let alone himself, is hard to imagine. That was Bo...he didn't let anything stop him from doing what needed to be done, no matter the risk or how much pain it cost!
Bo had a big heart and a great laugh. I will miss you Bo.
