I knew Lenka as an employee at rmc and as a patient. She will be missed very much. She was very knowledgeable and compassionate. She never complained about her health condition. Such a joy to know!

“ I would like to express my deepest condolences to lenkas family. She was a very kind and giving and loving soul. I always enjoyed talking with her and spending time with her she was always very supportive but I would ask her about medical advice sometimes her answers would get too deep into medical terms and I would have to ask her to please bring it back so I can understand it. She would always chuckle and say okay it's like this. Even during her long hard battle with cancer she would always worry about me more than herself. She'd say be careful Todd if you go out anywhere and always offering to help in any way she could. She was by my side through multiple surgeries and procedures last year always trying to comfort me and console me. We shared a lot of memories over the last 30 years. She had a great love for music and used to love to sing and play her guitar. She had an amazingly beautiful soft voice. I strongly express my appreciation to Gary and Tina for giving me the opportunity to come out to their house say goodbye to my loving kind beautiful friend I was able to sit and talk with her for a few minutes and pray with her and tell her I'd see her again someday. It was really hard to say goodbye but I find peace in knowing that she's in heaven and doesn't have to suffer anymore she suffered in so much pain after Batman so hard for so long. I will miss her dearly and miss her loving kind support of words. She really loved her family. I have this great big round planter outside my front door and she would come over every spring fill it with different kinds of flowers and plants it always looks so colorful and beautiful I would say you don't have to do that and she would say I just wanted to do something nice for you. Rest in peace my beautiful friend love and miss you. With loving memories Todd

“ We hope the memories you have of Lenka bring you comfort. I tried to get a flight so I could be there to support you on Monday, but that was not possible. I will be thinking and praying for all of you. Love,

“ I worked with Lenka in the CT department at Riverside. She ALWAYS put the patient first and cared so much about her work and the difference she made. Lenka was kind, compassionate, and passionate about the radiology field. I learned a lot from her. We talked a lot about having Boxer dogs and how silly and loving they could be. Lenka - I will miss your kind words and gentle smile. Rest is peace.

“ I worked with Lenka for many years at Riverside and she was always soft-spoken, compassionate and kind. I always told her that I feel like she missed her calling as a teacher. She was very intelligent, patient, and thorough, she would have made an excellent teacher. She was always very gentle and caring with her patients. Definitely an asset to the healthcare field, she will be missed greatly. Rest in peace Lenka.

“ I will always remember her German potato salad brought to family
gatherings, never able to duplicate. She was one of my favorite in-
laws and whenever I saw her she was always joyful.
