“ I was pretty shocked when I got the news of Mikes passing, I haven't seen or spoke to him in years 😞

Mike and I go back to the Westchester days, the family lived a few houses down from us, our kids played together, we always did “adult night” that was one of Mikes favorite things, crazy fool. Westchester during the late 80' and 90's was one heck of a neighborhood and people like Mike are what made it great. He put so much of his time into making the pool a great place to hang out with family. You could see it on his face when he'd stop down to check things out, because if you knew mike then, you'd know he did not ever attempt to enter the water any time before July at least 😭

Those are great memories, thanks Mikie, you are missed 💕💕

“ I did not know Mike extremely well when he became supervisor over our department but I grew to really like him and enjoy his presence. You could just tell he was a great person from talking to him, always smiling and in a good mood, always kind and fair as a supervisor and never took his stress out on anyone. I am extremely upset to hear of his passing because even though I did not know him as well or as long as I wish I had, he always boosted my morale and brightened my day. He was an outstanding boss and human being, always fair and kind and I am shedding tears as I write this. My condolences to his family, he was missed when he left the company and he is missed even more now. Having someone like him as a boss/supervisor is a one in a million treat, he was the only one there who genuinely seemed to care about his employees and job. I hope the visitation is on Saturday as I wish to attend.
