“ To my sweet Alli You will always have a special place in my heart. We have been friends for many years and you were always there for me when I needed you I was there when you transition and over the years I've seen you transform from a wonderful mother and wife to Emily and the love for your family. Even though you're not with us in the physical world I know that you are at peace your going to be missed dearly. I know your watching over everyone your my angel 😇

“ You were the only one i cared about seeing at work. We laughed so much, joked so much. You helped me so much in my department when you knew no one was there to help me, for so long. You, me, and Kyle were going to start a podcast together, we even had a name for it. I know our friendship is new, but I feel like we got close super quick. I talked to you about everything. I'll always wish you were more open. You and Emily even watched my son when no one else was there to help. You gave Wyatt a Gatorade that night. The empty bottle is still sitting in my car. I cant throw it away. I will miss you every day. Everyday. ❤️

“ Things won't be the same at the store without you there. I'm going to miss you and all of our conversations about gaming, tools, and that stupid okee doke game you always played. You were an outspoken, hardworking, and fun loving friend. May God bless you and those who are affected by this, I truly hope you've found peace. Til we meet again.
