*Wow, what a shocker. I learned about Steve's passing late since I'm retired and not in contact much with ex co-workers. Steve worked on a different railroad but we moved each others trains and that is how I got to know and get close with Steve. He was very interesting to talk with, and he loved sharing his love of family and gardening, among many other interests. He helped me with starting and setting-up my raised bed garden by coming to my home. He was such a nice and honest man (and a good worker also) and I'm glad I got to make his friendship. My condolences to his wife and son. Ian, can you please email me (Ernie) at..... [metraguy@sbcglobal.net](mailto:metraguy@sbcglobal.net)*
